Hi Carlin and David –

I understand that Carlin is heading back out to the Site. We really appreciate her help on this! I just wanted to confirm that the CI need is ongoing at this Site and there's for a community meeting – possibly on Thursday.

Thanks again and let me know if you need anything. I include Carlin on the paycap waiver to ensure that she does not have issues but she could determine her earnings limit (remember to do the OT form).

Thanks

Based on our assessment, all homes will be cleaned. There are 17 parcels that are impacted including a 5 unit and 10 unit apartment complex.

Hi all.

Just a quick CI update from the Fruitland Magnesium Fire Incident (Maywood Fire)-

Friday, June 17, 2016

I worked with Bernard Tolliver, Lindsey Lastra, and Natalie Jimenez (DHP) to put together a factsheet for the families who were evacuated from 52nd street due to the fire. The factsheet explained what took place, EPA R9 planned to do air sampling and characterize the burn area, and that EPA, Los Angeles County Fire Department (HHMD), and the County of Los Angeles Public Health (DHP) are serving as the United Incident Command.

Because this is a united effort, it was determined that Dr. Silvia Prieto would be the Incident Commander for public outreach. Maywood is primarily Spanish speaking and DHP had the staff to effectively serve the community.

The representatives from DHP and myself met up with Helen Chavez (Assistant Director of the Office of Emergency Management) for a community meeting, with the families, at the YMCA. We explained what took place and what the next steps would be. The families were very appreciative to hear that DPSS would be providing hotel vouchers and their homes would be decontaminated as well as their cars if they were left behind Tuesday night (night of the fire). Lindsey compiled a list of the residents cellphone numbers and told them she would send a blast text with more updates as soon as we had them.

Saturday, June 18, 2016

DHP held a community meeting with the residents to communicate the decontamination process and to get all of the names, addresses, cellphone numbers, and to confirm if their car was left behind (this was for the carwash vouchers). It was communicated that a representative from each of the addresses listed needed to be present for the cleanup.

We worked on several different outreach materials to give to residents for information:

Residents FAQ for 211

Residents FAQ

Information flyer

I have asked Lindsey and Natalie (DHP) to continue to cc me on all documents for review and input before putting it out publicly.

Any questions or concerns please feel free to contact me.

Thanks!
